Behind The Headlines - Cecil Rosner 2011-08-24 Canadian investigative journalism has brought down governments, held powerful interests to account, infiltrated criminal networks, and exonered the wrongly accused. Behind the Headlines presents the exciting history of investigative journalism in Canada in an account spanning from the nation's earliest newspapers through to the present day. Drawing on numerous case studies and examples, Cecil Rosner, a journalist with more than 35 years of experience, analyzes the evolution of investigative journalism in Canada and explores the development of specific practices within the context of changing social and historical forces. Rather than working through a straightforward chronology, Rosner uses a topic-based approach exploring wide-ranging and thought-provoking issues such as public broadcasting, commercialization of the press, alternative media, ethics, and the impact of technology. Highlighting key players and stories such as the sponsorship scandal and the Mulroney "Airbus Affair," Behind the Headlines provides fresh insight into this previously undocumented history. A new Preface to the paperback edition brings the book up to date, offering a current perspective on the shift from old to new media and ongoing efforts for media outlets to find financially sustainable revenue models. After the collapse of the Canwest empire and the rise of ProPublica and WikiLeaks, the turbulent media landscape is taking on a new form. What implications does this have for investigative journalism, not just in Canada, but around the world?

Economic Policy Beyond the Headlines - George P. Schultz 1998-06-20 Drawing on their experience as government insiders, the authors of this book show how economic policy is shaped at the highest levels of government. They reveal the interconnections between economic, social and international policy, covering such issues as the advocacy system.

Watchdog - Darrell Issa 2016-07-12 You might think you had a front-row seat to the shocking scandals of Benghazi, the IRS targeting of conservatives, Fast & Furious, illegal email servers, mishandling America's secrets and cover-ups at the EPA. The rest of the story, told here for the first time, is even more troubling. In WATCHDOG, Congressman Darrell Issa reveals some of the worst of Washington, pulls back the curtain on business as usual in the Capitol, and lets in the sunshine of accountability. As Chairman of the Committee on Oversight and Government Reform, Issa led a years-long fight to uncover what was really happening in the Obama Administration and Hillary Clinton's State Department, while taking on mainstream media and establishment Beltway culture he quickly found out weren't always interested in the truth. But what the public doesn't know about Big Government and what the people may not realize is happening to their country requires someone in Washington willing to tell the truth no matter who gets the blame. Carrying out aggressive oversight brought Issa into conflict with not only political foes, but friends and allies as well. Through it all, he has sought to remind everyone in government they are still subject to the rule of law and accountable to the American people. WATCHDOG is the inside account of what it took to get the truth and what it will take for our democracy to endure.

Bioethics Beyond the Headlines - Albert R. Jonsen 2005 Bioethics beyond the Headlines is a down-to-earth primer. You will not find convoluted philosophical arguments in this volume. Rather, you will find a sampling of the key concepts and debates in bioethics, including euthanasia, assisted reproduction, cloning and stem cells, neuroscience, access to healthcare, and even research on animals and questions of environmental ethics - areas typically overlooked in general introductions to bioethics.

Too Big to Fail - Walter Stewart 2000

China Beyond the Headlines - Timothy B. Weston 2000 This unique book takes the reader Obey the headlines to explore a China few Westerners have seen. The authors argue that the great gap between what specialists understand and the general public believes has led to distorted and potentially dangerous misunderstandings of China. Seeking to bridge that gap, a group of prominent scholars and activists challenge readers to move past the usual images of China presented by the media and to think about the common problems shared by China and the United States. In a morally engaged spirit, they explore such issues as environmental degradation, unemployment, growing inequality, ethnicity, human rights, corruption, and changing images of women to bring to life the fabric of contemporary Chinese life and how it twines around the political consciousness of Americans.

Beyond the Headlines - Arej Zafari 2012-10-17 Beyond the Headlines: A Deeper Look at Middle Eastern Culture Take a look at today's newspaper. There will almost certainly be relevant news articles that involve the people of the Middle East. But what do these headlines tell us? How do we understand what is happening in Syria, Iran, Egypt, and Qatar through brief articles and sound bites? Who are the people behind those headlines? Beyond the Headlines is for readers who are frustrated by fragments of news. This book allows readers to discover and explore Middle Eastern culture without dogma or a political agenda. Beyond the Headlines reveals the true Middle East.

Iraq Beyond the Headlines - November 25, 1997

Bulletin of the Story Behind the Headlines - 1938
current affairs to create a compelling narrative that challenges how we make sense both of the world around us and of our own beliefs. Julian Bagdini is the editor and co-publisher of The Philosophers' Magazine.

Physics for Future Presidents: The Science Behind the Headlines—Richard A. Muller 2008-08-17 A San Francisco Chronicle Bestseller We live in complicated, dangerous times. Present and future presidents need to know if North Korea's nuclear capability, Iran's nuclear ambitions, and China's nuclear threat to the West, if biological weapons are likely to be developed by terrorists, if there are viable alternatives to fossil fuels that should be nurtured and supported by the government, if private companies should be allowed to lead the way on space exploration, and what the actual facts are about the worsening threats from climate change. This is "must-have" information for all presidents—and citizens—of the twenty-first century. Winner of the 2009 Northern California Book Award for General Nonfiction. Images in this eBook are not displayed due to permissions issues.

History Behind the Headlines, Vol. 3— 2002

Ripped from the Headlines—Harold Schechter 2020-07-07 Bestselling true-crime master Harold Schechter explores the real-life headline-making psychos, serial murderers, thrill-hungry couples, and lady-killers who inspired a century of classic films. The necktie murders in Alfred Hitchcock's Frenzy; Chicago's Jazz Age crime of passion; the fatal hookup in Dirty Harry? How did such tabloid-ready killers as Ronnie and Clyde, body snatchers Burke and Hare, Texan sniper Charles Whitman Jr., nurse-slayer Richard Speck, and Leopold and Loeb exert their power on the public imagination and become the stuff of movie lore? In this collection of revelatory essays, true-crime historian Harold Schechter takes a fascinating trip down the crossroads of fact and fiction to reveal the sensational real-life stories that are more shocking, taboo, and fantastic than even the most imaginative screenwriter can dream up.

Eyes Wide Open—Paul Fleischman 2014 A summary of today's environmental challenges also counsels teens on how to decode conflicting information, explaining the role of vested interests while identifying the sources behind different opinions and sharing suggested online resources to help teens make informed consumer choices. Simultaneous.

History Behind the Headlines—Sonia G. Benson 2002-05 Presents in-depth information on conflicts appearing in today's headlines. Users are provided with historical background and analysis to events to give a greater understanding of the politics, players, and layers of current affairs.

History Behind the Headlines, Vol. 4— 2002

Energy for Future Presidents: The Science Behind the Headlines—Richard A. Muller 2012-08-06 The author of Physics for Future Presidents returns to educate all of us on the most crucial conundrum facing the nation: energy. The near-meltdown of Fukushima, the upheavals in the Middle East, the BP oil rig explosion, and the looming reality of global warming have reminded the president and all U.S. citizens that nothing has more impact on our lives than the supply of and demand for energy. Its procurement dominates our economy and foreign policy more than any other factor. But the “energy question” is more confusing, contentious, and complicated than ever before. We need to know if nuclear power will ever really be safe. We need to know if solar and wind power will ever really be viable. And we desperately need to know if the natural gas deposits in Pennsylvania are a windfall of historic proportions or a false hope that will create more problems than solutions. Richard A. Muller provides all the answers in this must-read guide to our energy priorities now and in the coming years.

The New World Order—Russell Bellru ll 1992 People everywhere have been stunned by the swift collapse of communism and the emergence of the United States as the world's sole remaining superpower. The stage has suddenly been set for the arrival of an entirely "New World Order." - But the United States is not the only world power jockeying for control of this new world order. - The head of perhaps the world's most powerful church—a religious leader who played a significant yet almost-unknown role in the communist collapse—is positioned to play a major role. * The religious right—while seeking to champion "family values," prayer, and the sanctity of human life--may in reality be unwittingly taking the first steps down a path that in time could lead to the greatest religious intolerance ever witnessed. * And even in the non-religious world—dominated by secular humanism—an ancient occultism strides aggressively forward under the New Age banner. None of this is just coincidence. The truth is, all of this and more is the stuff that predicted centuries ago by two Bible prophets—Daniel and John the Revelator. The New World Order shows how today's headlines are rapidly fulfilling these ancient prophecies. What you are about to read may be chilling—or thrilling. It may also be the most important book you've read in years.

Let the Swords Encircle Me—Scott Peterson 2010-09-21 NO OTHER COUNTRY SO DOMINATES THE HEADLINES: Iran is portrayed as a nuclear threat, a terrorist nation, a charter member of the Axis of Evil bent on the destruction of Israel. But behind these headlines—and the fierce rhetoric of Iran's most hard-line leaders—is a proud nation with a 2,500-year history of Persian poetry, art, and passion. Based on more than thirty extended reporting trips to Iran, including the turbulent aftermath of the disputed June 2009 election, Scott Peterson's portrait is the definitive guide to this enigmatic nation, from the roots of its incendiary internal struggles to the rise and slide of Iran's earthshaking 1979 Islamic Revolution. This prize-winning American journalist with unparalleled experience in Iran takes you there, inside a country where an educated and young population is restless and eager to take its place in the world; where martyrs of the "sacred" Iran-Iraq War are still mourned with tears of devotion; where the cultural and religious forces of light and darkness are locked in battle. Peterson presents a stunningly alive picture of Iran: its rich history, its thin future, and its furious need of an "enemy" in political discourse. The same elements that have locked the United States and Iran in the most vicious of struggles—stretching back to the 1953 CIA coup in Tehran and the 1979 U.S. Embassy hostage saga—are the same ones that could one day make Iran and the United States the most "natural" allies in the region. In this critical and personal account, Peterson illuminates the latest episodes of Iran's century-old quest for democracy and freedom. He explains how the Islamic Revolution—launched as a beacon of justice and resistance for Iranians and all the world's Muslims—has not lived up to its ambitious promise. He shows how the violence of 2009 damaged the regime's legitimacy and marks the start of an irreversible decline. Let the Swords Encircle Me takes us into the minds and hearts of Iranians today, and will be a crucial guide as Americans and Iranians attempt to overcome their bitter estrangement.

History Behind the Headlines—Caitlin Crews 2012-09-18 Haunted by one scandal too many, tabloid-savaged and vulnerable, Larissa Whitney turns her back on her gilded fortune. Desperately hiding from the paparazzi's relentless cameras, Larissa escapes to a small, secluded island, seeking refuge. But she's not alone—instead, Larissa finds herself face-to-face with Manhattan tycoon Jack Endicott Sutton. Now she's trapped on an island with a man she had a wild affair with five years before.... A man she's still achingly attracted to. A man who knows the outrageous truth!

Behind-the-Headlines-a-history-of-investigative-journalism-in
reflecting on the fragility of health, not recognized in America as a human right but without which all rights and freedoms have no meaning. And that was true before the pandemic. We have since watched American hospitals, long understaffed and undersupplied, buckling under waves of ill patients. The federal government made matters worse through willful ignorance, misinformation, and profiteering. Our system of commercial medicine failed the ultimate test, and thousands of Americans died. In this eye-opening cri de coeur, Snyder traces the societal forces that led us here and outlines the lessons we must learn to survive. In examining some of the darkest moments of recent history and of his own life, Snyder finds glimmers of hope and principles that could lead us out of our current malaise. Only by enshrining healthcare as a human right, elevating the authority of doctors and medical knowledge, and planning for our children’s future can we create an America where everyone is truly free.

**Great Mysteries of the Past - 1992 Contains 91 stories, generously illustrated, of unsolved disappearances and murders, famous scandals and mysteries and great mistakes that had international repercussions. Indexed. First published in Germany by Verlag Das Beste (1990).**

**Buried by the Times - Laurell Leff 2005-03-21 An in-depth look at how The New York Times failed in its coverage of the fate of European Jews from 1939–45. It examines how the decisions that were made at The Times ultimately resulted in the minimizing and misreporting of modern history’s worst genocide. Laurell Leff, a veteran journalist and professor of journalism, recounts how personal relationships at the newspaper, the assimilationist tendencies of The Times’ Jewish owner, and the ethos of mid-century America, all led The Times to consistently downplay news of the Holocaust. It recalls how news of Hitler’s ‘final solution’ was hidden from readers and - because of the Times’ ‘American’ stance - from America at large. Buried by The Times is required reading for anyone interested in America’s response to the Holocaust and for anyone curious about how journalists determine what is newsworthy.**

**Betrayal of the Spirit - Nort J. Muster 2013-03-15 Combining behind-the-scenes coverage of an often besieged religious group with a personal account of one woman’s struggle to find meaning in it, Betrayal of the Spirit takes readers to the center of life in the Hare Krishna movement. Nort J. Muster joined the International Society of Krishna Consciousness (ISKCON)–the Hare Krishnas—in 1978, shortly after the death of the movement’s spiritual master, and worked for ten years as a public relations secretary and editor of the organization’s newspaper, the ISKCON World Review. In this candid and critical account, Muster follows the inner workings of the movement and the Hare Krishnas’ progressive decline. Combining personal reminiscences, published articles, and internal documents, Betrayal of the Spirit details the group’s internal conflict and offers a sweeping portrait of the ISKCON–as well as the dynamics of schisms that formed since 95 percent of the group’s original members to leave. In the midst of this institutional disarray, Muster continued her personal search for truth and religious meaning as an ISKCON member until, disillusioned at last with the movement’s internal divisions, she quit her job and left the organization. In a new preface to the paperback edition, Muster discusses the personal circumstances that led her to ISKCON and kept her there as the movement’s image worsened. She also talks about ‘the darkest secret’—child abuse in the ISKCON parochial schools—that was covered up by the public relations office where she worked.**

**Wizards of Media Oz - Norman Solomon 1997 Two journalists offer their views on the forces behind the mainstream news sources in the United States.**

**Critical Statistics - Robert de Vries 2018-10-04 Awarded the 2019 Most Promising New Textbook Award by the Textbook & Academic Authors Association. This accessible and entertaining new textbook provides students with the knowledge and skills they need to understand the barrage of numbers encountered in their everyday lives and studies. Almost all the statistics in the news, on social media or in scientific reports are based on just a few core concepts, including measurement (ensuring we count the right thing), causation (determining whether one thing causes another) and sampling (using just a few people to understand a whole population). By explaining these concepts in plain language, without complex mathematics, this book prepares students to meet the statistical world head on and to begin their own quantitative research projects. Ideal for students facing statistical research for the first time, or for anyone interested in understanding more about the numbers in the news, this textbook helps students to see beyond the headlines and behind the numbers.**

**HEIRESS BEHIND THE HEADLINES - Caitlin Crews 2016-12-17 It’s a field day for the tabloids when famous young media heiress Larissa Whitney’s fiancée dumps her in broad daylight in the streets of New York. But there was never any love between them; she’d only gotten engaged to him to get back at her father. To escape the watchful eyes of the paparazzi, she makes her way to a small island resort in Maine. It’s there that she meets Jack, the heir of a wealthy family and, if you believed the rumors, a notorious playboy. Drawn together by their shared experience being hounded by the tabloids, they share a night of romance. Weeks later at Christmas, Larissa finds herself alone in New York despairing that no one can see the real her, only the lies and scandals. Little does she know she’s about to get a helping hand from her old flame Jack!**

**History Behind the Headlines - Nancy Matuszak 2002 This volume presents terrorism-related conflicts, including each conflict’s historical context, changes, and up-to-date status.**

**Neuropharmacology of New Psychoactive Substances (NPS) - Michael H. Baumann 2017-04-13 Designer drugs, or new psychoactive substances (NPS), are synthetic chemicals that mimic the effects of classic drugs of abuse. There has been an alarming worldwide increase in the abuse of NPS in recent years. NPS are cheap, easy to obtain, and often legally available. In this volume, leading experts summarize the latest studies regarding the molecular mechanisms of action, behavioral effects, and adverse consequences of popular NPS. Specific chapters clarify the differences between various types of NPS, namely: stimulants, cannabinoids and hallucinogens. Thus, this volume broadens our understanding of NPS and provides insight into the rapidly evolving “new drug” phenomenon.**

**Madoff Talks: Uncovering the Untold Story Behind the Most Notorious Ponzi Scheme in History - Jim Campbell 2021-04-27 “The authoritative source on one of history’s most notorious Ponzi schemes.”—Fortune The definitive, in-depth account of the spectacular rise and fall of Bernie Madoff—and the greatest Ponzi scheme of all time—featuring new, exclusive, never-before-published details from Madoff himself No name is more synonymous with the evils of Wall Street than Bernie Madoff. Arrested for fraud in 2008—during the depths of the global financial crisis—the 70-year-old market maker, investment advisor, and former chairman of the NASDAQ had orchestrated the largest Ponzi scheme in world history, fleecing thousands of investors across the globe to the tune of $65 billion. To this day, questions remain: Why did he do it? How did he get away with it for so long? What did his family know? Who is the elusive Bernie Madoff? In Madoff Talks, author Jim Campbell presents the most comprehensive, insider account of the Madoff saga to date. Based on exclusive interviews with all the players—the Madoff family and their associates, the Wall Street wheelers and dealers, the army of lawyers, analysts, and investigators, the victims of the scheme, and Bernie Madoff himself—the book reveals: what motivated a respected financier to commit such a massive fraud—and why he thought he could get away with it how Madoff managed to keep the scheme hidden in plain sight—despite numerous SEC investigations the shocking failures of Wall Street oversight—and how it could happen again the true scale of the investment losses—and the victims’ ongoing fight for justice What Ruth Madoff and the rest of the family knew—and how they shattered their lives Madoff Talks features the first, and likely only interviews with Ruth Madoff and defense attorney Ira Sorkin, for which Bernie waived attorney-client privilege, as well as never-before-published details from the author’s personal communications with Bernie Madoff in prison. A vivid, powerful piece of investigative reporting, the book takes us behind the headlines to show the full human cost of the crimes, and offers a cogent analysis of the reforms necessary to prevent it from happening again. Meticulously researched and relentlessly riveting, Madoff Talks is the full story of an American tragedy.**

**Details at Ten - Bert Shipp 2011 As broadcast news came of age in the turbulent decades of the 1950s and ‘60s, North Texas reporter Bert Shipp was on the front lines. While television changed the way Texas and the world witnessed history, Shipp’s Dallas/Fort Worth coverage reported stories of both national and local importance. Whether in the media race to
