SEDUCTIONS AND ENIGMAS - John Fletcher 2014
In a career spanning more than five decades the distinguished French psychoanalyst Jean Laplanche (1924-2012) elaborated a distinctive methodology for the reading of Freud’s corpus and evolved, in connection with it, a radical new metapsychology - one that critically recast Freud’s early ‘seduction’ theory of trauma and placed at the heart of psychic life a particular model of ‘enigmatic signification.’ Seductions and Enigmas is a volume dedicated to the implications of Laplanche’s thought for reading and interpretation. It collects papers that elaborate Laplanche’s unique method for the interpretation of Freud, with its attention to the decentering and recentering movements of thought that structure the psychoanalytic field, and explore how the metapsychological developments arising from the implementation of that method open up new horizons for the psychoanalytic reading of other texts and oeuvres in the cultural domain. The volume comprises essays by Laplanche as well as by clinicians and scholars whose work takes inspiration from his research. Authors variously establish, develop or consolidate Laplanche’s critical methodology as such, or work through aspects of his major theoretical innovations as points of departure for the reading of cultural works of different kinds: fiction, drama, painting, visual and sound installations, and film. These theoretical innovations cover a breadth of topics including seduction, sublimation, gender, femininity, the functions of binding and unbinding, masochism and the role of the enigmatic. In their range, the texts brought together here are a testament to the vitality and fertility of Laplanche’s theoretical endeavour, for anyone concerned with the re-reading of Freud or with continuing to recalibrate and advance the parameters of critical interpretation in light of Freud’s legacy.

PSYCHOANALYTIC PERSPECTIVES ON WOMEN, MENSTRUATION AND SECONDARY AMENORRHEA - Danielle Redland 2020-05-15
"I can be a mother, a wife, a daughter, a sister and a woman without having periods." This book explores two of the oldest and most important symbols of all time: menstruation and secondary amenorrhea. Women of menstruating age commonly experience secondary amenorrhea - a cessation of periods - but most people have never heard of the term, nor do they realise what it represents. Danielle Redland’s curiosity as to why this is posits that menstrual conditions need to be decoded, not just simply treated. Surveying menstruation and Secondary Amenorrhea (SA) principally from a psychoanalytic perspective, with sociocultural, historical, political and
religious angles also examined, Psychoanalytic Perspectives on Women, Menstruation and Secondary Amenorrhea draws secondary amenorrhea out of the shadows of its menstruating counterpart, and explores how narratives of womanhood and statehood dominate. Chapters on blood ideology and war amenorrhea, on Freud’s treatment of Emma Eckstein and on the psycho-mythology of Pygmalion, present the reader with visions beyond patriarchy towards more thoughtful ideas on the feminine, challenging assumptions about gender, identity and what is deemed "good" for women. Rich in clinical examples, the book locates menses and their cessation at the heart of personal experience and examines psychosomatic phenomena, the link between psyche and body and the value of interpretation. From the author’s own analysis to a variety of cases linked to hysteria, anorexia, stress, trauma, abuse, helplessness and hopelessness, individual stories and narratives are sensitively recovered and carefully revealed. This refreshing example of multi-layered research and psychoanalytic enquiry by a new, female writer will be of great interest to psychologists, psychotherapists, healthcare and social work professionals and readers of gender studies, history, politics and literature.

**Gender Rhetorics** - Richard C. Trexler 1994

**Seduction** - Rachel O’Neill 2018-06-28 Within the so-called seduction community, the ability to meet and attract women is understood as a skill which heterosexual men can cultivate through practical training and personal development. Though it has been an object of media speculation – and frequent sensationalism – for over a decade, this cultural formation remains poorly understood. In the first book-length study of the industry, Rachel O’Neill takes us into the world of seduction seminars, training events, instructional guidebooks and video tutorials. Pushing past established understandings of ‘pickup artists’ as pathetic, pathological or perverse, she examines what makes seduction so compelling for those drawn to participate in this sphere. Seduction vividly portrays how the twin rationalities of neoliberalism and postfeminism are reorganising contemporary intimate life, as labour-intensive and profit-orientated modes of sociality consume other forms of being and relating. It is essential reading for students and scholars of gender, sexuality, sociology and cultural studies, as well as anyone who wants to understand the seduction industry’s overarching logics and internal workings.

**Longing for the Fall** - Annelies van Heijst 1995 (Peeters 1995)

**The Reproduction of Mothering** - Nancy Chodorow 1999-11-02 When this best-seller was published, it put the mother-daughter relationship and female psychology on the map. The Reproduction of Mothering was chosen by Contemporary Sociology as one of the ten most influential books of the past twenty-five years. With a new preface by the author, this updated edition is testament to the formative effect that Nancy Chodorow’s work continues to exert on psychoanalysis, social science, and the humanities.

**Seduction and Desire** - Ilka Quindeau 2018-03-08 Modern society has introduced many new relationships and family forms and the pluralisation of sexual lifestyles in the hundred years since Freud. This book provides a systematic account of the current state of theory, developing a gender-wide model of human sexuality and outlining the implications of this for psychotherapy practice. The author argues that the development of human sexuality follows no innate biological programs, but takes place in an interpersonal relationship, often established in the early parent-child relationship. Whereas the current psychoanalytic discourse emanates from a rather rigid division of gender relations emphasizing the differences between men and women, the author develops a gender-wide model of human sexuality in which the ‘masculine’ and ‘feminine’ are integrated and contribute to the full diversity of gender identities and sexual varieties. She points to structural similarities of hetero-and homosexuality and perversion and calls for a
general human sexuality that is based less on differences between men and women than with each other.

**Iron Men, Wooden Women**-Margaret S. Creighton 1996 From the voyage of the Argonauts to the Tailhook scandal, seafaring has long been one of the most glaringly male-dominated occupations. In this groundbreaking interdisciplinary study, Margaret Creighton, Lisa Norling, and their co-authors explore the relationship of gender and seafaring in the Anglo-American age of sail. Drawing on a wide range of American and British sources--from diaries, logbooks, and account ledgers to songs, poetry, fiction, and a range of public sources--the authors show how popular fascination with seafaring and the sailors' rigorous, male-only life led to models of gender behavior based on "iron men" aboard ship and "stoic women" ashore. Yet Iron Men, Wooden Women also offers new material that defies conventional views. The authors investigate such topics as women in the American whaling industry and the role of the captain's wife aboard ship. They explore the careers of the female pirates Anne Bonny and Mary Read, as well as those of other women--"transvestite heroines"--who dressed as men to serve on the crews of sailing ships. And they explore the importance of gender and its connection to race for African American and other seamen in both the American and the British merchant marine. Contributors include both social historians and literary critics: Marcus Rediker, Dianne Dugaw, Ruth Wallis Herndon, Haskell Springer, W. Jeffrey Bolster, Laura Tabili, Lillian Nayder, and Melody Graulich, in addition to Margaret Creighton and Lisa Norling. "This collection not only sketches life at sea in all its detail and diversity but also expands our understanding of the connections of gender, occupation, class, colonization, and race at sea and on land in the nineteenth century. The book combines first-rate scholarship with lively, accessible writing--no small accomplishment!"--Jeanne Boydston, University of Wisconsin-Madison

**Religion, Society, And Psychoanalysis**-Janet L Jacobs 2018-02-12 Distinguished contributors provide an overview of three generations of psychoanalytic theory, including the work of Freud, Horney, Winnicott, and Kristeva, and discuss the evolution of psychoanalytic thought as it relates to the role that religion plays in modern culture. Religion clearly remains a powerful social and political force in Western society. Freudian-based theory continues to inform psychoanalytic investigations into personality development, gender relations, and traumatic disorders. Using a historical framework, this collection of new essays brings together contemporary scholarship on religion and psychoanalysis. These various yet related psychoanalytic interpretations of religious symbolism and commitment offer a unique social analysis on the meaning of religion. Beginning with Freuds views on religion and mystical experience and continuing with those of Horney, Winnicott, Kristeva, Miller, and others, this volume surveys the work of three generations of psychoanalytic theorists. Special attention is given to objects relations theory and ego psychology, as well as to the recent work from the European tradition. Distinguished contributors provide a basic overview of a given theorists scholarship and discuss its place in the evolution of psychoanalytic thought as it relates to the role that religion plays in modern culture. Religion, Society, and Psychoanalysis marks a major, interdisciplinary step forward in filling the void in the social-psychology of religion. It is an extremely useful handbook for students and scholars of psychology and religion.

**Defining Dominion**-Gerhild Scholz Williams 1995 She guides the reader through a variety of
texts - many of them popular and influential in their day - and tells the story of how women were thrust into the center of a destructive discussion lasting several hundred years.

Belief, Bodies, and Being-International Association of Women Philosophers Symposium 2006 In Belief, Bodies, and Being, twelve distinguished contributors present diverse and illuminating viewpoints on feminist issues of embodiment, materialism, and agency from feminist and postmodernist philosophical perspectives. Beginning by positing non-traditional ways of approaching ontological concerns (through the acknowledgement of agential realties and the usage of an ontology of tropes), the volume concludes by addressing highly specific, culturally constituted types of postmodern bodies (monstrous, anorexic, and pharmaceutical bodies).

Family Values and Nazi Perversions-Andrea E. Slane 1995

Nathaniel Hawthorne's The Scarlet Letter- Kimberly Free Muirhead 2004 This book provides a selectively comprehensive and cross-referenced record of the enormous body of scholarship on The Scarlet Letter from 1950 to 2000, as well as an introductory overview of the major patterns and trends in the critical interpretations of the novel. Designed for both new and seasoned readers/critics, the four-part study can be used in two ways: as a chronological record and historical survey of the development of ideas in criticism over five decades, and as a reference guide that can be accessed through the Author, Subject, and Critical Approach Indexes. Part I provides a chronological, annotated listing of the most frequently anthologized Early Reviews of the novel. Part II offers full citations for Early Influential Criticism [Pre-1950] and is comprised of forty-one landmark commentaries that appeared between 1850 and 1950. Part III, which makes up the bulk of the project and begins with the year 1950, presents a comprehensive annotated bibliography of Scarlet Letter criticism that includes books, articles, special critical editions, collections of criticism, general student introductions and help books, teaching aids and guides, bibliographies, and biographies. critical editions, collections of criticism, general student introductions to the novel, teaching aids and guides, bibliographies, and biographies.

Research in African Literatures- 1994

A Companion to American Literature-Susan Belasco 2020-04-02 A comprehensive, chronological overview of American literature in three scholarly and authoritative volumes A Companion to American Literature traces the history and development of American literature from its early origins in Native American oral tradition to 21st century digital literature. This comprehensive three-volume set brings together contributions from a diverse international team of accomplished young scholars and established figures in the field. Contributors explore a broad range of topics in historical, cultural, political, geographic, and technological contexts, engaging the work of both well-known and non-canonical writers of every period. Volume One is an inclusive and geographically expansive examination of early American literature, applying a range of cultural and historical approaches and theoretical models to a dramatically expanded canon of texts. Volume Two covers American literature between 1820 and 1914, focusing on the development of print culture and the literary marketplace, the emergence of various literary movements, and the impact of social and historical events on writers and writings of the period. Spanning the 20th and early 21st centuries, Volume Three studies traditional areas of American literature as well as the literature from previously marginalized groups and contemporary writers often overlooked by scholars. This inclusive and comprehensive study of American literature: Examines the influences of race, ethnicity, gender, class, and disability on American literature Discusses the role of technology in book production and circulation, the rise of literacy, and changing reading practices and literary forms Explores a wide range of writings in multiple genres, including novels, short stories, dramas, and a variety of poetic forms, as well as autobiographies, essays, lectures, diaries, journals, letters, sermons, histories, and graphic
narratives. Provides a thematic index that groups chapters by contexts and illustrates their links across different traditional chronological boundaries. A Companion to American Literature is a valuable resource for students coming to the subject for the first time or preparing for field examinations, instructors in American literature courses, and scholars with more specialized interests in specific authors, genres, movements, or periods.

**Freud's Early Psychoanalysis, Witch Trials and the Inquisitorial Method**-Kathleen Duffy 2019-11-29 In Freud’s Early Psychoanalysis, Witch Trials and the Inquisitorial Method: The Harsh Therapy, author Kathleen Duffy asks why Freud compared his ‘hysterical’ patients to the accused women in the witch trials, and his ‘psychoanalytical’ treatment to the inquisitorial method of their judges. He wrote in 1897 to Wilhelm Fliess: ‘I ... understand the harsh therapy of the witches’ judges’. This book proves that Freud’s view of his method as inquisitorial was both serious and accurate. In this multidisciplinary and in-depth examination, Duffy demonstrates that Freud carefully studied the witch trial literature to develop the supposed parallels between his patients and the witches and between his own psychoanalytic method and the judges’ inquisitorial extraction of ‘confessions’, by torture if necessary. She examines in meticulous detail both the witch trial literature that Freud studied and his own case studies, papers, letters and other writings. She shows that the various stages of his developing early psychoanalytic method, from the ‘Katharina’ case of 1893, through the so-called seduction theory of 1896 and its retraction, to the ‘Dora’ case of 1900, were indeed in many respects inquisitorial and invalidated his patients’ experience. This book demonstrates with devastating effect the destructive consequences of Freud’s nineteenth-century inquisitorial practice. This raises the question about the extent to which his mature practice and psychoanalysis and psychotherapy today, despite great achievements, remain at times inquisitorial and consequently untrustworthy. This book will therefore be invaluable not only to academics, practitioners and students of psychoanalysis, psychotherapy, literature, history and cultural studies, but also to those seeking professional psychoanalytic or psychotherapeutic help.

**Dora, Hysteria and Gender**-Daniela Finzi 2018-09-10 Freud’s Dora case and contemporary debates on gender, sexuality and queer theory ‘Dora’ is one the most important and interesting case studies Sigmund Freud conducted and later described. It constitutes a key text in his oeuvre and finds itself at the crossroads of his studies in hysteria, the theory of sexuality and dream interpretation. The Dora case is both a literary and theoretically ground-breaking text and an account of a ‘failed’ treatment. In Dora, Hysteria and Gender renowned Freud scholars reflect on the Dora case, presenting various innovative and controversial perspectives and elaborating the significance of the text for contemporary debates on gender, sexuality and queer theory. This volume is of interest for psychoanalysts and scholars working on psychoanalysis, sexuality, gender, queer theory, philosophical anthropology and literary studies. Contributors: Rachel B.
The (M)other Tongue - Shirley N. Garner  
2019-06-30 This timely and provocative collection of sixteen essays combines feminist and psychoanalytic approaches to literary theory and to the reading of literary texts. It demonstrates not only the ways in which psychoanalytic theory can illuminate traditional literary texts, but also the ways in which feminist theory can modify, enlarge, and in some instances transform the body of psychoanalytic literature. Treating psychoanalysis as a form of narrative as well as a method of interpretation, the editors have divided their collection into three sections: 1) interpretations of the relation between contemporary feminism and Freud; 2) rereadings of classic patriarchal texts in the light of psychoanalytic feminism; and 3) readings of texts by women writers that have subverted patriarchal structures and given authoritative new voice to the maternal figure. Many of the essays make original contributions to the current debate about the conjunction of Freud and feminism; others offer innovative readings of specific texts that illustrate the significance of that relation. The Introduction provides an up-to-date survey of feminist psychoanalytic theory and enumerates the central issues. Because of the diversity of critical perspectives it offers and the range of texts it considers, this rich and important book will attract a broad spectrum of readers.

Law, Culture, and Sexual Censure - Kathleen Ruth Parker 1993

Seduction, Surrender, and Transformation - Karen J. Maroda  
2013-06-17 Seduction, Surrender, and Transformation demonstrates how interpersonal psychoanalysis obliges analysts to engage their patients with genuine emotional responsiveness, so that not only the patient but the analyst too is open to ongoing transformation through the analytic experience. In so doing, the analyst moves from the position of an "interpreting observer" to that of an "active participant and facilitator" whose affective communications enable the patient to acquire basic self-trust along with self-knowledge. Drawing on the current literature on affect, Maroda argues that psychological change occurs through affect-laden interpersonal processes. Given that most patients in psychotherapy have problems with affect management, the completing of cycles of affective communication between therapist and patient becomes a vitally important task. The book is designed to help analysts achieve this by providing a comprehensive description of the process of affective communication in the psychoanalytic context and by offering practical guidance on how to use this knowledge in clinical practice.

The Art Of Seduction - Robert Greene  
2010-09-03 Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of The 48 Laws of Power, Mastery, and The 33 Strategies Of War.
important aspect of the therapeutic enterprise. Through emotionally open responses to their patients and careful use of patient-prompted self-disclosures, analysts can facilitate affect regulation responsibly and constructively, with the emphasis always remaining on the patients' experience. Moments of mutual surrender - the honest emotional giving over of patient to analyst and analyst to patient - epitomize the emotionally intense interpersonal experiences that lead to enduring intrapsychic change. Maroda's work is profoundly personal. She does not hesitate to share with the reader how her own personality affects her thinking and her work. Indeed, she believes her theoretical and clinical preferences are emblematic of the way in which the analyst's subjectivity necessarily shapes theory choice and practice preferences in general. Seduction, Surrender, and Transformation is not only a powerful brief for emotional honesty in the analytic relationship but also a model of the personal openness that, according to Maroda, psychoanalysis demands of all its practitioners.

The Seductions of Quantification - Sally Engle Merry 2016-06-10 We live in a world where seemingly everything can be measured. We rely on indicators to translate social phenomena into simple, quantified terms, which in turn can be used to guide individuals, organizations, and governments in establishing policy. Yet counting things requires finding a way to make them comparable. And in the process of translating the confusion of social life into neat categories, we inevitably strip it of context and meaning—and risk hiding or distorting as much as we reveal. With The Seductions of Quantification, leading legal anthropologist Sally Engle Merry investigates the techniques by which information is gathered and analyzed in the production of global indicators on human rights, gender violence, and sex trafficking. Although such numbers convey an aura of objective truth and scientific validity, Merry argues persuasively that measurement systems constitute a form of power by incorporating theories about social change in their design but rarely explicitly acknowledging them. For instance, the US State Department's Trafficking in Persons Report, which ranks countries in terms of their compliance with antitrafficking activities, assumes that prosecuting traffickers as criminals is an effective corrective strategy—overlooking cultures where women and children are frequently sold by their own families. As Merry shows, indicators are indeed seductive in their promise of providing concrete knowledge about how the world works, but they are implemented most successfully when paired with context-rich qualitative accounts grounded in local knowledge.

A Feminine Cinematics - Caroline Bainbridge 2008-11-04 Drawing on the work of philosopher Luce Irigaray, this groundbreaking study intervenes in the debate around women and film. Women's films can be seen as providing a new arena for the exploration of sexual difference and patterns of representation and spectatorship. This timely book analyses films such as The Piano, Orlando, Antonia's Line and The Silences of the Palace in order to make the case that a feminine cinematics is now emerging through the scene of women's filmmaking. Caroline Bainbridge moves beyond the framework of textual analysis by making a compelling case for the importance of contextual elements in contemporary women's cinema, foregrounding issues of production, direction and reception.

Born Illiterate - Rodica Diaconescu-Blumenfeld 1999
